**Online help desk and knowledge base**

Selerity provide an online Help Desk and Knowledge Base which is accessible at <https://support.selerity.com.au>. Security is controlled by the domain of your business email address, and users must self-register using the URL above. At your request, we can create custom Knowledge Base documents which will be made available in a secure area of your online Help Desk. Technical Support tickets may be raised by logging in to the Selerity Support site at the above URL, or by emailing [support@selerity.com.au](mailto:support@selerity.com.au). The volume of Support requests available to you is determined by the Package you have signed up for.

**Access**

In order to provide speedy and efficient service to you Selerity require remote access to your SAS environment. The choice of how this remote access is provided is up to you. With many customers already having a VPN solution in place this is easy. For customers that do not have an established remote access solution we can deploy our LMI Hamachi VPN. If remote access is not possible then we will be unable to provide any hands-on support services.

**SAS administration**

All tasks undertaken by Selerity are done by certified SAS Administrators and fully documented in a Ticket that is available for your review.

Selerity can support all your SAS Administration tasks including:

- user management
- group management
- metadata management
- security support
- backup management
- EMI Framework (audit) management
- license updates
